

REMARKS

In response to the rejection of claims 20-25 and 27-30 as being anticipated by the Lee reference (U.S. Pat. No. 6,636,966), Applicants enclose the R. 132 affidavit of present co-inventor Lane Lee. In this affidavit, Lane Lee testifies that the subject matter relied upon in the Lee reference to reject the pending claims is the invention of Lane Lee. Therefore, this subject matter is not the invention of "another" under 35 U.S.C §102(e). Applicants note that the submission of this affidavit is not a concession that the Lee reference anticipates the pending claims. Instead, it merely establishes that the subject matter relied upon to reject the pending claims is Lane Lee's invention.

A terminal disclaimer is enclosed to obviate the double patenting rejection of claim 30 over the Lee reference.

Claim 27 has been amended to change its dependency to pending claim 25.

In addition, the specification has been amended to update the status of the applications incorporated by reference.

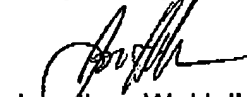

M-9793 US

For the foregoing reasons, Applicants respectfully submit the pending claims are in condition for allowance.

If the Examiner has any questions or concerns, a telephone call to the undersigned at (949) 752-7040 is welcomed and encouraged.
